Reg No.: 2019/031133/07

COMPANY PROFILE

Bates Interior Solutions is a specialist company specializing in the supply and installation of raised access flooring. Jonathan Bates the founder of Bates Access Flooring (C.E.O) and Majority Shareholder for 22 years with 28 years in the flooring industry and Eric Nghonyama with over 25 Years in the industry both with a combined experience of over 53 year's experience in the flooring industry have Started Bates Interior Solutions (Pty) Ltd. Not only specializing in Raised Access Flooring but also Domestic and Commercial Carpeting, Carpet Tiles, Carpet Planks, Vinyl Tiles and Sheetting, Luxury Vinyl Planks and the supply and install Laminate Click Flooring, Synthetic Grass, Studded Rubber and Self-Levelling Screed.

Bates Interior Solutions is a Level 2 BEE specialist supplier and installer of Raised Access Flooring and cable management systems and are a supplier of Lithium Phosphate Batteries and Battery Management Systems (BMS). We also supply C&T products all to South Africa & Abroad. Bates Interior Solutions is now proud to be a reseller of InstaCradle a unique, patented rubber crumb cradles and base packers manufactured from quality rubber. Together with cradle packers, timber battens overlaid with chipboard, plywood or a hardwood, they form the prime recycled Tyre component in creating high performance acoustic and sports floors which can accommodate a variety of floor coverings.

We supply and install the ST, Solidlock and Multilock access floor systems. We also supply and install the Kingspan / Tate Raised Access Flooring Systems. Not to mention other Ranges of Local access Floor Systems and international products imported on request. We are specialists in servicing old and aging access flooring, the refurbishment and reenforcement of access flooring systems and upgrading of access floor installations. Please note that all Access Flooring Carries a 12 Year Warranty.

We also undertake deep cleaning of access floor installations, the installation of access flooring on behalf of other contractors and the installation of carpeting and vinyl on behalf of other contractors.

With a combined industry experience of over 53 years in the construction industry. The management and contractors of Bates Interior Solutions have more experience the just about any other company in the flooring industry.

Bates Interior Solutions is now proud to be reselling InstaCradle – unique, patented, rubber crumb cradles and base packers manufactured from quality recycled Tyre rubber. Together with cradle packers, timber 10 battens overlaid with chipboard, plywood or a hardwood, they form the prime component in creating high performance acoustic and sports floors which can accommodate a variety of floor coverings.

Features and Benefits

- Rubber crumb cradles have a 60-year guarantee
- Available as cradle and packer components or a full system
- Fast, easy and cost-effective to install
- Cradles are loose laid and do not require fixing to sub-floor
- Adjustable to produce varying finished floor heights
- On-site levelling to overcome uneven floors
- No levelling screeds or drying times needed
- Manufactured from recycled materials
- Fully recyclable, genuine 'cradle-to-cradle' product
- Excellent acoustic solutions
